Dear Shaylesh

SUPPORT OF GREAT FEN PROJECT

I understand that the Healthy Planet Foundation has recommended our Great Fen Project as a worthy project, right here in the UK, which is protecting land for our children and future generations to enjoy.

One of the most exciting conservation efforts in England, the Great Fen Project is creating a 9,000-acre fenland habitat in Cambridgeshire for the benefit of wildlife and people. We have secured nearly 60% of the land already. Imagine walking for miles through grassland, woods and meadows without seeing a road! The project will also open new opportunities for education and business.

Please pass on our thanks to Rosenblatt Law and all their guests at the New Energy Awards for generously passing their profits from the event to Healthy Planet, and thank you for selecting the Great Fen as one of the worthy projects supported.

My best wishes to the organisers, guests, nominees and especially the winners.

I hope Rosenblatt and guests enjoy visiting their plot at the Great Fen tonight, albeit virtually, through your very fancy Land Guardian experience! And I hope you will all come to see the project area in real life as well – project organisers would be happy to arrange a guided walk for everyone here tonight. Come see how your money will be invested in a healthy future for England!

Have a great night and a great year.

Kind regards

Stephen Fry
President, Great Fen Project
